Subject: . "EXECUTE ...

. "EXECUTE JUSTICE, NOT PEOPLE"

By Ronald Wayne Clark Jr.

Justice delayed is justice denied. That is what Governor Ron DeSantis had to say when trying to justify all these executions in Florida. Well here on death row, where I speak to the officers daily, you want to know what they think? They think this double execution today July 28, 2026 and all these monthly executions is nothing more than a political stunt. A career politician trying to make a name for his self, trying to keep his name in the political arena because he's unable to run for office this term, and he recognized that former Governor, current Senator Rick Scott, won his Senate seat by racking up the highest body count of any Governor in the state of Florida. DeSantis has shattered that record in order to reach Washington D.C. and its highest office. And these officers have hit it right on the head! Our Catholic Governor has told the Pope, Bishops and Christ their savior, to stick mercy and compassion where the sun don't shine, that he doesn't give a damn about their teachings morals or principal's or heaven itself, he's more interested in the office of the Presidency of the United State's of America!!!! Justice delayed is justice denied?! The death penalty is not justice, its societies sick twisted method of vengeance! Do you rob the robber? Do you steal from the thief? Do you assault the assaulter? DO WE RAPE THE RAPIST? DO WE MOLEST THE CHILD MOLESTERS?! No, but yet you want to murder the murderer under the mantel of justice, and call it a righteous and just punishment when what your doing is premeditated murder like no one has ever committed before in any civilized society! And yet this form of injustice is only in acted on poor uneducated individuals that society deems as trash! Disposable waste! Florida alone has had 30 exonerations from death row! That in and of itself should have ended the death penalty decades ago! And most of these men being churned out through Florida's machinery of death, never received what amounts to true due processes! If you've followed my blog and writings over the years then you seen how in my case, a no good prosecutor concealed the greatest piece of evidence in my case from the jury, and that evidence was the clothing that my codefendant and I was wearing the night of this shooting death of this 38 year old man. My codefendant admitted to stealing the gun, admitted to luring the man to this dark isolated area, telling him we wanted out, not in front of the store, but in an area where no people could see what he had planned. This is on record, yet my incompetent counsel Henry Davis doesn't bring any of this out in my trial. Doesn't hire an investigator, or even walk across the street to the Jacksonville Sheriff's office and look at the physical evidence that they have, which is our clothing, exculpatory evidence that would have exonerated me as the trigger man, and proved unequivocally that my codefendant shot and killed this man for his truck with the gun he unequivocally stole and a truck, that he unequivocally tried to sell for \$800.00 two days later to a man name Joseph Strickland. That's in the record! For over a decade I tried to get attorneys and investigators to retrieve those clothes and have them tested for DNA and blood spatter evidence to no avail. When I finally do get competent counsel and an investigator that listens to me, they go over to the Jacksonville sheriff's office evidence room only to find out the clothing, exculpatory evidence that should have been used at trial, is now gone! Destroyed evidence that would have unequivocally proved

that my codefendant shot and killed this man, and perjured himself on the stand in my trial in order to make a deal with the prosecutor that allows him to walk the street's in Georgia a free man today. And this isn't a phenomenon in our Justice system, supplying the poor with inadequate counsel to go up against this prosecutorial machine that has unlimited resources and will do any and everything inside and outside of the law to get a conviction! And my judge David C. Wiggins protected my prosecutor and trial attorney who both became Judges, by..... I honestly believe destroying this exculpatory evidence that they hid from the jury in order to get this conviction. These dishonorable men sit on the bench handing out unjust sentences, getting unjust convictions bases on lies, perjured testimony and cover ups, where they remove evidence that the jury should have seen.

In Florida, we had a Florida Supreme Court Justice Raoul Cantero appointed by Republican Governor Jeb Bush state that these death penalty lawyers is I quote, "SOME OF THE WORST LAWYERING I'VE EVER SEEN!" And these were the attorneys that botched my appeals and got me procedural barred. An attorney that robbed the state of tax dollar's, lied to me during my evidentiary hearing, and presented no evidence or testimony to support any of the claims that he had raised, and was granted a hearing on. I will always believe that appeal attorney was given quid pro quo by these three sitting judges, for keeping that exculpatory evidence (clothing) from being introduced into court evidence in 2007, allowing them to official discard the clothing and conceal the only evidence that could have proven my innocence. Welcome to justice delayed is justice denied! Yes its fraud, Governor DeSantis is stacking bodies up to climb his way to capital hill. Will my body be one of his stepping stones to reach the office of Presidency? We will see. God have mercy on this godless immoral country and these institutions that put more value on the dollar they bring in, than the lives they save.

Once again Regretfully Submitted Ronald Wayne Clark Jr.

July 28,2026 another bloodstained day on the history of Florida and its injustice system that puts up this perception of Due Processes Under the Law in order to committee premeditated homicide.
