"LATE TERM ABORTION"

By Ronald Wayne Clark Jr.

Today Tuesday October 13,2026 James Robertson aka Jimmy has DeSantis and the state of Florida assisting him with his late term abortion/suicide. Yes he killed, committed a murder and used Florida laws, in order to get this death sentence so that the state could fulfill his desire to end his life! So the state of Florida is engaged in a state assisted late term abortion/suicide today, and you can't argue that it's any different than an abortion, Jimmy just made the decision to abort this life, with and through the help of Florida law and our government. So what's the difference between the two when a Prolife Governor says no to abortion, but yes to assisting this mentally ill man with his death? Cause let's face it, Jimmy is mentally disturbed, and his past actions and conduct are anything but the actions of a sane man. God bless Florida, Ron DeSantis Pro-lifer's in America and these screwed up laws that is allowing Jimmy to abort his life of hell that he wanted no part of and assist Jimmy in his state assisted suicide which is no more than a late term abortion!

Regretfully Submitted
