. "OUTRIGHT MURDER!!!!"

By Ronald Wayne Clark Jr.

Florida and our Catholic Governor Ron DeSantis has committed 18 murders this year, with the 19th coming up on November 5th! And 19 murders last year! Yes 38 murders in less than 2 year's!

When its UNCONSTITUTIONAL, and you continue to use an UNCONSTITUTIONAL LAW, to execute men, then its MURDER! And the facts are the facts! Florida's death penalty statute was found to be UNCONSTITUTIONAL in Hurst v State, Case No. SC12-1947(Fla., October 14,2016) a case that got hundreds of death sentences thrown out, due to the UNCONSTITUTIONALITY of Florida's death penalty sentencing statute, that was allowing judges and not jurors to hand down the sentence. This new ruling resulted in the unanimous 12-0 vote being put in place by the Florida Legislature, and the jurors no longer being an advisory, but the one who actual recommends and hands down the sentence.

Our Florida Legislature also created a Bill filed on November 14, 2017 entitled, SB 870 Capital Felonies, to have Hurst v State, become retroactive, removing every death sentences that was given under this UNCONSTITUTIONAL LAW where the judge and not the jury sentenced men to death! SB 870 passed the Senate 34-3 because although Senator Galvano missed the vote, he voted,"Yea," agreeing the current Florida Death Penalty Statute is UNCONSTITUTIONAL! That vote took place on March 9,2018. So we had bipartisan agreement that this death penalty statute 921.141and 921.142 etc that men were and are still being murdered under, was and is,"UNCONSTITUTIONAL"! The Bill SB 870 was sent to the House of Representatives on March 9,2018. Sadly before SB 870 could be heard by the House of Representatives, and constitutionally corrected, so Florida's death penalty statute and every death sentence could meet constitutional standards, this 18 year old mentally ill punk kid Nikolas Cruz, walks into Marjory Stone man Douglas High School, and murder's 17 innocent men women and children, which resulted in the House of Representatives, indefinitely postponing and withdrawing SB 870 from consideration the very next day, March 10,2018.

So human emotions overrode commonsense and constitutional standard's to where only death sentences after June 24,2002 was found to be UNCONSTITUTIONAL! Now we had 34 Senators on both sides of the isle, agreeing that this arbitrary date was insane and stupidly applied, for if it was unconstitutional on June 24,2002, then clearly it was unconstitutional when it was implemented into law in or about 1973. That's just commonsense! So here we have it, where men who's sentence was unfortunately ruled on, on or before June 23,2002 and sentenced by a judge and not a jury, are being murdered under the mantel of Justice! I don't care where you stand in this fight, but you have to admit one thing, either the constitution stands on the law and principles of this land, or its its no better than the paper you use to wipe your butt with! So what is it?! Cause you can't have it both ways!

So this country and especially the State of Florida needs to get their head out of their butt and stop letting Ron DeSantis murder these men using an UNCONSTITUTIONAL LAW that 34 Senators agreed was unconstitutional! 34 law abiding American's, that make the law admitted

these men were illegally sentenced under a law that was unequivocally found to be UNCONSTITUTIONAL where judge sentenced them to death and not a jury!

Again the emotions overrode commonsense and law, for in October 2022, when Nikolas Cruz by a jury vote of 9-3 got a life sentence, rather than death, which is what our vindictive evil Governor sought out, "VENGEANCE OVER JUSTICE ", he goes and pressures the Legislature into passing SB 450 to have the 12-0 vote done away with, and a 8-4 vote to be put in place. So the law and these fraudulent behind law makers are working for the rich and powerful, and not the commoners who work their behind off and live and die protecting a constitution that isn't worth the paper its written on!

I don't care if you get mad! You can't beat me getting mad! I'm watching men be murdered! I've endured a life, that for 50 plus years that I wish I wouldn't have been born into! God bless abortion! And damn this miserable life! I wish every day that my mother would have had an abortion! Because one thing is as certain as the unconstitutionality of Florida's death penalty statute, that allowed the judge and not the jury to murder these men, and that is I shouldn't have been brought into this stinking world! And I can't wait for this life to end! Cause its on the verge of driving me insane watching this nation of hypocrites murder men in an act of emotional vengeance! God have mercy on this evil hypocritical nation and those of you who stand silently by allowing these men to be murdered.

Regretfully Ronald Wayne Clark Jr. #812974
